

Shatri

Platform that pays everyone who is connected

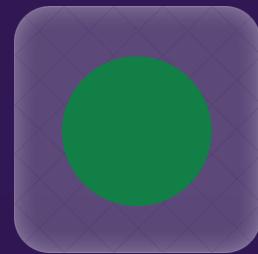

About Shatri Token

Version 1.0
Decentralized
300% ROI
100% Secure
Decentralized

Shatri Token Target & Goals

Q4 2023 ICO Launch with Shatri V1

Q1 2024 DApp, Crowd Funding,
Ecosystem Expansion

2024 Shatri V2, DeFi Project & Gamefi Project
Launch

Why Us

**Shatri 1 with
ultimate power**

**Complete Decentralized
Platform**

**300X ICO, Expansionary
Ecosystem**

Introducing the Binance Smart Chain

Binance Smart Chain is a Ethereum's
layer 2 Scalling platform that reduced the
Gas Cost significantly addressing all
Scalability issues & being fully Secure

What Binance Offers

Decentralized Platform

Low Transaction Fees

High Throughput

Interoperability

Security

What is a DAPP

Decentralized application or DApps are applications that are built on Blockchain Tech to create more transparent, secure systems.

Regular applications are typically controlled and operated by a central entity such as a company or organization.

DApps on the other hand, run on a blockchain and operate autonomously, relying on collective efforts of a blockchain's nodes and rules coded on Smart Contracts.

Application of Binance in DeFi

DeFi DApp enable users to
access financial services
without intermediaries like
banks

DeFi allow individuals to
Lend, Borrow, Trade &
EARN on Cryptocurrencies

DeFi DApps allow users to
have more Control on
their Money

Shatri Token DApp
